PHYTOHEALERS GROUP

SUPERKINASE®

Studies has shown lumbrokinase has anti-ischemic action in brain. The researched data indicate that the anti-ischemic activity was due to its anti-platelet activity by elevating cAMP level and attenuating the calcium release from calcium stores, the anti-thrombosis action due to inhibiting of ICAM-1 expression.

Oral lumbrokinase improves regional myocardial perfusion in patients with stable angina. A proprietary & synergistic blend of extracts of *Logisticum*, *Notoginseng*, *Salvia miltiorrhizae*, *Rhodiola Rosea* and *Cinnamon Twig* are used to enhance the effectiveness of Lumbrokinase. Those Chinese herbs have been used for hundreds of years to treat cardiovascular diseases, and have promising results.

Indication:

- * Supports healthy cardiac function.
- * Helps to improve the elasticity of blood vessels.
- * Promotes blood circulation in the brain.
- * Helps to prevent enlargement of heart, myocardial infarction, and pectoris angina.

KITOSTEMMA®

Chitosan results from chitin, a derivative of polysaccharide. Cationic biopolymer obtained from a non-animal source superior to the common chitosan from crustacean shells. It supports to reduce fat absorption where studies has shown that Chitosan nanoparticles improve the intestinal absorption and bioavailability of insulin and help to reduce cholesterol, our proprietary & synergistic blend of Chinese herbal extracts was formulated to support glycemic control by improving insulin sensitivity and liver function as well as helping to regulate lipid metabolism. Those herbs have been used for hundreds of year and have shown the effectiveness in clinic.

Indication:

- * Supports healthy weight management.
- * Helps in lowering cholesterol levels.
- * Promotes healthy liver function and detoxification.

* This statement has not been evaluated by the Food and Drug Administration. This product is not intended to diagnose, treat, cure, or prevent any disease.
